DOCUMENT-IDENTIFIER: US 20010034641 A1

TITLE: Participant controlled mutual fund

----- KWIC -----

Pre-Grant Publication Document Identifier - DID (1):
US 20010034641 A1

Current US Classification, US Primary Class/Subclass - CCPR
(1):
705/12

Current US Classification, US Secondary Class/Subclass -
CCSR (2):
705/36

Detail Description Paragraph - DETX (7):
[0047] In the preferred embodiment, prospective participants can purchase shares of the mutual fund by contacting the mutual fund on the Internet, requesting an application and submitting the completed application with the appropriate funds to the advisor at the address provided on the Web site. In return for contributing monies to the mutual fund, the participant receives shares from the advisor. The share price at the inception of the mutual fund is determined by the advisor. In an alternative embodiment, the participants' ownership interests may be designated as such other than shares.

Detail Description Paragraph - DETX (14):
[0034] The target bank 1a, of course, can also play as a cooperative bank if the customer has a valid account in the bank 1a. In this case, the target bank processing means 7 will make an account confirmation by itself. Besides being applicable to new account applications, the network transaction system of the present invention can be used in general banking transactions such as online inquiry of the account balance summary. Those two cases will be described separately as alternative configurations of the present invention.

Detail Description Paragraph - DETX (90):

[0096] FIG. 5 illustrates a terminal screen for online account application.

When a customer connects the terminal station 10 to the target bank Y to sign up for a new account, the terminal station 10 will first show him/her a service menu screen. The user then selects an item titled "Opening Your New Account" from among the service menu items. In response to this selection, the terminal station 10 will display a submenu for the selected service menu item. The customer selects a submenu item titled "New Account Application," and then an account application screen 60 of FIG. 6 will appear on the terminal screen to prompt the customer to fill out an online application form.

Detail Description Paragraph - DETX (94):

[0100] The application screen 60 further comprises an APPLY button 67 and a CANCEL button 68. When all the data fields 61-66 in the application form are completed, the customer will click the APPLY button 67 to initiate a transaction for opening a new account. The CANCEL button 68 is used to cancel the current session of online account application.
